

## MANX Quilting

From the Isle of Man (British Isles) comes Manx quilting, a folded log cabin sewn on a foundation.

There was no hand out, but these videos will show you again how it's done.

And, yes...you can use this method for some other patterns and shapes, too...like pineapples, or make it around a hex shape, or around a rectangle!

If you come up short, feel free to ask me about any part.

Long and using modern

methods: <https://www.youtube.com/watch?v=Y1qijGvrbIM>

The one done with a docent on the Isle of Man:

And, of course, Google "Manx quilting" for an unlimited number of sites to learn more!
